

Welcome to NBA Feeds! This is an application that allows you to get the latest statistical information about the NBA.

Login:

If you're an existing user enter your username and password and click sign in to continue. If you're a new user, click the new account button to continue to create a new user account that we will store in our user database.

A screenshot of a web application window titled "Welcome to NBA Feeds!". The window has a light gray background. On the left, there is a large, stylized NBA logo. To the right of the logo, the text "NBA FEEDS" is displayed in a bold, black, sans-serif font. Below the text, there are two input fields: "Username" and "Password". At the bottom left, there is a button labeled "New User". At the bottom right, there is a button labeled "Sign In".

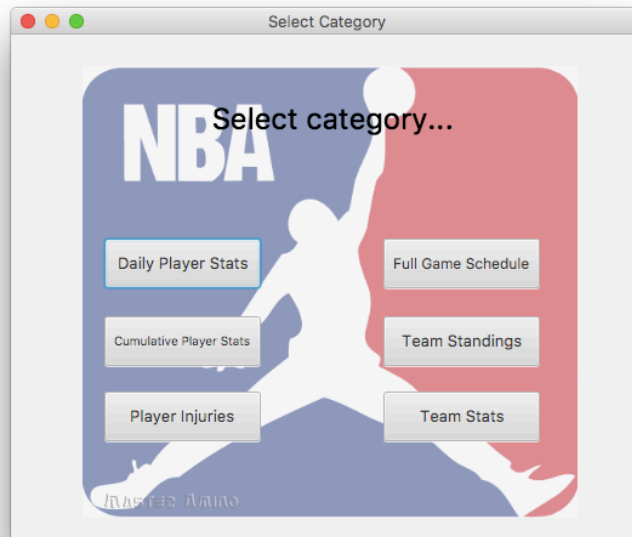

On the create account screen, enter you'll type in your preferred username and password. Note that if your username already exists in the database the system will prompt you to log in with that username or to continue with a new username. To enter your favorite team, simply type your teams name excluding the city with the first letter capitalized. For example, the "Miami Heat" would be entered as "Heat". For your favorite player, the system expects the first and last name, with appropriate capitalization, of any current player.

A screenshot of a web application window titled "Create Account". The window has a light gray background. At the top, the text "Create User Account..." is displayed. Below this text, there are four input fields: "Enter username", "Enter password", "Enter favorite team", and "Enter favorite player". At the bottom left, there is a button labeled "Back". At the bottom right, there is a button labeled "Create Account". The background of the window features a large, stylized NBA logo.

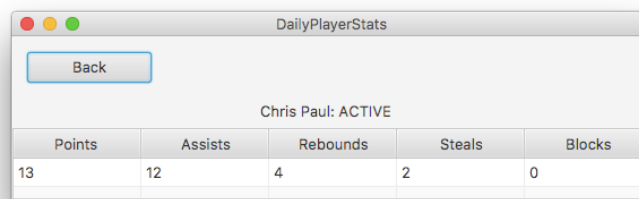

Select Category:

After logging in you'll be presented with the select category screen where you'll be able to choose from among six categories – Daily Player Stats, Cumulative Player Stats, Player Injuries, Full Game Schedule, Team Standings, Team Stats. If you'd like to log out of the system, simply click on the log out button.

Daily Player Stats:

This screen displays the key statistics for your favorite player. It makes it easy to see how your favorite player performed today.

Points	Assists	Rebounds	Steals	Blocks
13	12	4	2	0

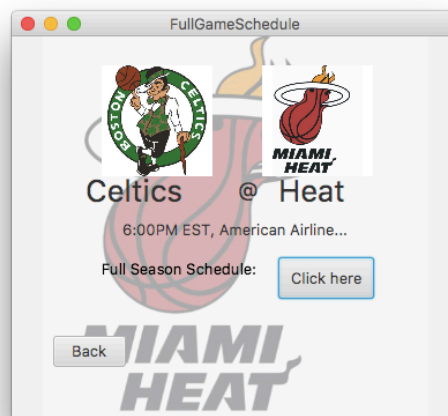

Cumulative Player Stats:

This screen displays the cumulative player stats for all players in the league. It is default sorted by player name, but can be sorted by the average field. To sort click on the column header, either name or avg. You have 5 statistical categories to choose from— points, rebounds, assists, blocks, and steals. All of which are calculated on a per game basis. To select a category, click on the relevant button.

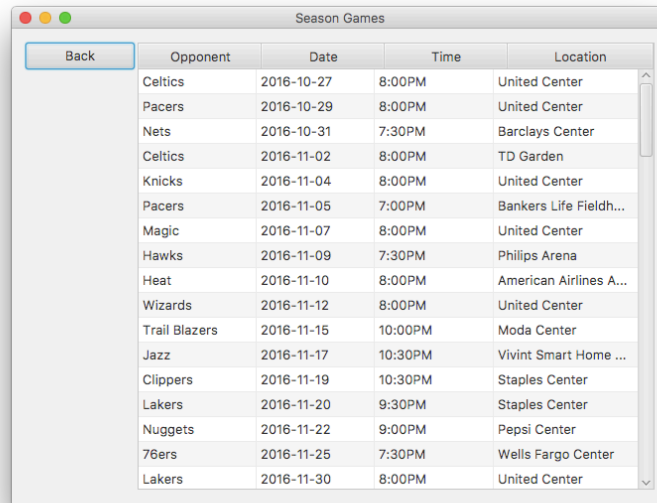

CumulativePlayerStats		
Back	Name	Avg.
Points	Courtney Lee	9.4
Steals	Cristiano Felicio	2.7
Assists	D'Angelo Russell	12.9
Blocks	D.J. Augustin	7.2
Rebounds	Damian Lillard	24.7
	Damien Inglis	0.4
	Damjan Rudez	1.5
	Danilo Gallinari	18.8
	Danny Green	7.0
	Dante Cunningham	5.9
	Dante Exum	0.0
	Darrell Arthur	7.0
	Darren Collison	13.4
	Darrun Hilliard	2.8
	David Lee	7.8
	David West	6.8
	DeAndre Jordan	12.0

Full Game Schedule:

This screen presents your favorite team's matchup for today as well as their logo and their opponents logo dynamically. To view your teams full schedule, click the button labeled "click here"

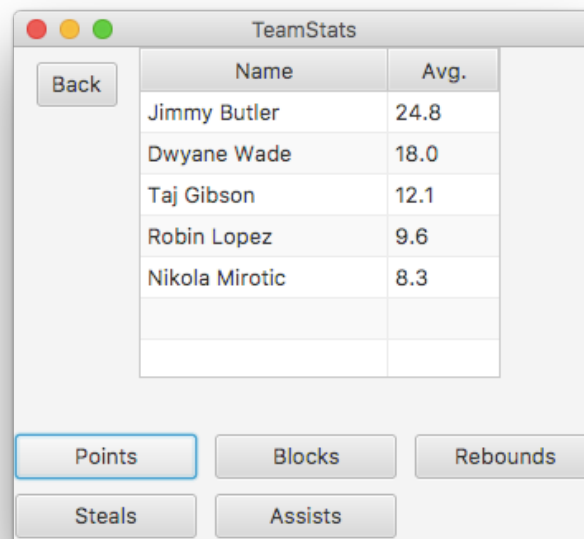

The full season's games is listed chronologically.

A screenshot of a macOS-style window titled "Season Games". It features a "Back" button on the left and a table with five columns: Opponent, Date, Time, and Location. The table lists 16 games from October 27 to November 30, 2016, involving various NBA teams like Celtics, Pacers, Nets, and Lakers at different venues such as United Center, Barclays Center, and TD Garden.
